

GIFTS OF STOCKS OR MUTUAL FUNDS: A Great Way to Give to the Causes You Care About

Did you know? Donating publicly traded stocks or mutual funds to a Canadian charity, like **The Dementia Society of Ottawa and Renfrew County**, can be one of the most strategic ways to give.

When you donate shares directly, you **don't pay any tax on the profits** you've made (*capital gains*). Plus, you get a **charitable tax receipt for the full market value** of the shares on the day they're transferred. To qualify for these benefits, your shares must be transferred "in-kind", meaning directly from your account to the charity's account, without selling them first.

By donating shares directly, you can get a larger tax credit and give more to the charity you care about.
*We recommend speaking with your financial advisor or tax advisor to make sure this type of donation is right for you.

Here's How it Works:

Let's say you want to donate \$5,000 worth of public company shares. Here's how it compares if you sell them and donate the cash vs. donating the shares directly:

Key steps	A Sell shares & donate cash	B Donate shares directly
1. Current share value	\$ 5,000	\$5,000
Original cost of shares	\$ 1,000	\$1,000
Capital gain	\$ 4,000	\$4,000
2. Tax on capital gain (approx. 27%)	\$ 1,071	\$0
Donation amount after tax (1 minus 2)	\$ 3,929	\$5,000
Your charitable tax credit	\$1,823	\$2,320

*This table is for illustrative purposes. Amounts will vary based on each person's unique tax situation and the value of shares donated.

*DSORC does not accept shares of privately held companies.
