PROJECT LIFESAVER

In Renfrew County, Project Lifesaver is helping to reduce the risk of wandering for people living with dementia.

60% of individuals living with dementia will wander away from home at least once

50%* of wanderers **not** found within 24 hours are at significant risk

Speed to Safety

Project Lifesaver combines radio technology with a coordinated police response to locate wandering and disoriented people due to cognitive issues like dementia. With an average rescue time of 30 minutes, Project Lifesaver can reduce potential for injury and save lives.

Eligibility Criteria

- Risk of wandering due to a diagnosis of dementia or another cognitive impairment
- Reside with, and is monitored by a caregiver
- Reside in the catchment area serviced by Renfrew O.P.P.
- Restricted from operating a motor vehicle
